DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 60 is rejected under 35 U.S.C. 102(b) as being anticipated by Bethuy et al.

Regarding claim 60, Bethuy et al. discloses an "Electronically controlled beverage dispenser" which has a first probe (38a), a second probe (38b), a ground probe (198) and a controller (140) coupled with both the first and second probes and a pulse signal attenuated by the ground probe indicating the sufficient/insufficient amount of liquid in the container.

Response to Arguments

3. Applicant's arguments filed on 01/21/03 have been fully considered but they are not persuasive.

Applicant argues that Bethuy et al. does not teach having a pulse signal that is received by the controller to the probes. However, it is stated in the reference at column 10, lines 14 and 15 of the reference that the controller receives a pulse signal. Also, at column 9, lines 34-37 Bethuy et al. disclose that a digital signal or pulse signal is sent to the controller and in column 13, lines 50-

51, Bethuy et al. disclose that the probe sends digital information to the controller as to whether the water level is sufficient. Therefore, Bethuy et al. does disclose that the controller receives the pulse signal form the probes as claimed.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
